CONTEXT

Seafrigo Group, a Le Havre-based ETI founded in 1976, has a long-standing position in the food, wine & spirits and e-commerce sectors.

With a global network of 25 locations on 5 continents, its own negative and positive cold infrastructure and a team of 2000 cold chain specialists, Seafrigo offers its customers a global supply chain that is controlled from end to end.

GOALS / REALISATION

New Caledonia is a remote French territory to which we pay a lot of attention, especially since it has recently moved closer to Singapore since the introduction of direct flights by Aircalin between Noumea and the city-state. Seafrigo's ambition is to offer a range of services that aim at facilitating trade, especially food trade, between New Caledonia and mainland France on the one hand and Singapore, our regional hub in South East Asia, on the other.

Our services are declined as follows:

Noumea/Singapore axis

- Air freight;
- Sea freight, FCL & LCL;
- Customs formalities and advice on customs and health regulations;
- LCL Reefer (- 20 C) monthly between our Pacific hub in Auckland NZ and Singapore;
- Verification and validation of health certificates;
- Assistance and coordination with SFA sanitary services for submission of samples for laboratory sampling (meat);
- All temperature storage: -20C, + 3C, + 15 C;
- Bonded storage of wines and spirits;
- Horeca distribution by refrigerated trucks;
- Logistic assistance for fairs and exhibitions;
- Logistical assistance for ships in port of call (food supply support).

France/ Noumea axis

- FCL Reefer Le Havre, Dunkerque, Fos, Antwerp / Noumea;
- LCL/FCL Reefer (or customized consolidation) Le Havre / Noumea;
- Packaging and air freight perishable goods Rungis/Noumea.
