About New Caledonia Trade & Invest

Export assistance

With its physical presence in Fiji, New Caledonia Trade & Invest aims to develop the trade relations between New Caledonia and Fiji. Our team, based both in Noumea and Suva, is here to support both New Caledonian and Fijian companies in their export process. NCT&I counts more than 100 members in various sector of activities (agriculture, industry, services, transport, IT, health, engineering...).

Our services go from networking and linking you to the right point of entry, informing you about the latest export/import requirements, providing market information and extensive market research, to organizing trade missions. We are organizing frequent information meetings and webinars on various topics (export, country focus, investment opportunities...) to keep our members in touch of the news in the Pacific. We also provide our members access to a weekly Pacific's tender monitoring so they don't miss any business opportunity.

Additionally, NCT&I is assisting investors who are interested into investing in New Caledonia.

Biscochoc

Chocolate manufacturer

Created in 1979 and specialized in the world of chocolate, Biscochoc, with its French origins and South Pacific location, has managed to harmonize the great knowledge of French Chocolate with an exotic and original touch. From the cooking chocolate block to the finest chocolates, Biscochoc has also franchised two stores at the Tonton Jules brand where new and exclusive flavors are offered...

Biscochoc took over at the end of 2016 the management of a cocoa plantation in Vanuatu, on the island of Malekula, to produce high quality organic chocolate, lately used for the manufacturing of the VULCANIC Kit Kat in Japan and selectioned by Harrods in London.

PRODUCTS

- Chocolate bars (45, 70, 100gr...)
- Mini blocks chocolate (napolitains)
- Nut chocolate coated
- Rock (praline chocolate coated)
- Hazelnuts spread
- Seasonals (Christmas/Easter)

INTERESTS

- As part of its international development, the company wants to strengthen its business through research of new importers in the Asian market and especially in South Pacific.
- Biscochoc is looking to import cocoa from Fiji

Brasseurs du Lagon

Craft brewery

Our products are inspired by the beers of the new world and our Australian and New Zealand neighbors with beers of character loaded with taste and exotic flavors. Aromas of caramel, coffee, litchi, tropical fruits or banana and pineapple make up our beers.... Don't be mistaken! All these flavors come exclusively from the malt, hops and yeast that we use. No additives, coloring, enhancers, preservatives or additional sugars are added to our recipes. In addition, our ingredients are mainly of organic origin.

Craftsmanship is our philosophy with a production tool on a human scale and a continuous research of original flavors for quality products.

As beer making is a complex and highly demanding process to ensure quality and consistency in production, we have been trained in France at the IFBM (French Institute of Beverages, Brewing and Malting), a world-renowned and benchmark organization.

PRODUCTS

- Blonde beer (5%) : *BICHETTE*
- White beer (4,5%) : *WHEATY*
- American Pale Ale (5,5%) : *BIG P'APA*
- India Pale Ale (7%) : *RED-IKA*
- Seasonal beers

INTERESTS

- Interested to find a distributor in Fiji for their craft beers

Rhum

Terre du Sud

Distillery

Terre du Sud is above all the desire to share a know-how, a unique terroir and a real moment of conviviality. The adventure begins in 2016 in New Caledonia, a land of sharing and passion, with an ambitious objective: to revive the production of local, quality rum. It is on this rich and preserved land that Terre du Sud rums are produced and distilled. Our sugar canes have given birth to a warm and powerful rum. Our local fruits, picked and peeled by hand, bring incomparable aromas to our arranged rums.

Our know-how: an artisanal manufacture, fruits stemming from the responsible agriculture, a pure product of the Caledonian soil, 11 years of experience in the distillation.

PRODUCTS

- White rum : gold medal at ISS awards in 2021 and silver medal at the Concours Général Agricole of the Salon International de l'Agriculture in 2019
- Arranged rums : elaborated with local fruits, peeled by hand, fruits macerate between 3 months and 1 year
- Rum pure cane juice
- Whisky single malt (the first caledonian whisky)

INTERESTS

- Interested to find a distributor in Fiji for their rums

Moonshine

Distillery

Moonshine Distillery was established in New Caledonia in 2018 and each recipe is made in a secret valley where a special spring water flows giving it its unique flavors. The team of Moonshine learnt the art of distillation in Australia and are using noble materials from the South Pacific to produce their spirits : cereals from New Caledonia and molasses from Fiji.

Thanks to three copper stills, Moonshine has the capacity to supply large quantities of spirits on a regular basis (full containers) and offers a wide range of spirits.

PRODUCTS

- Whisky (Bourbon, oak barrel aged whisky, Single Malt)
- Rums (white, dark, coco, vanilla)
- Spirits (gin, vodka, tequila, pastis, lychee liqueur, berry vodka)

INTERESTS

- Interested to find a distributor in Fiji for their spirits
- Interested to find clients in Fiji
- Interested to source raw materials from Fiji

MOONSHINE

Socalait

Food & beverages manufacturer and distributor

Our Caledonian company was established on March 1st 1973. It is specialized in the production and distribution of dairy products such as cheeses, yoghurts and in the wholesale of fresh, dry and frozen products. We market our products throughout New Caledonia and we also export to Wallis, Vanuatu and Tahiti.

Our products such as yoghurts (under Yoplait license), ice creams (under Miko license) and chocolate (local brand Lapita) are produced locally.

Socalait is a distributor in the pacific of major cheese manufacturers such as BEL and LACTALIS.

PRODUCTS

- Fresh Dairy Products
- Creams
- Cheeses
- Butters & Margarines
- Beverages
- Chocolates
- Ice creams
- Desserts

INTERESTS

Vergnet Pacific

Renewable energy solutions provider

Established for more than 20 years in New Caledonia, Vergnet Pacific, a subsidiary of the Vergnet SA Group, offers you solutions in wind, photovoltaic and hybrid energy. Our success results from a comprehensive approach to renewable energy projects that encompasses feasibility studies, site qualification, project development, financing, construction, operation and maintenance. Vergnet Pacific delivers turnkey service on grid-connected and off-grid plants in the pacific.

We are the global leader in wind energy solutions and manufactures the GEV MP wind turbines, from 200 to 275kW. First developed for cyclonic conditions, the wind turbines are easily installed, transported and maintained. We provide first-class solar photovoltaic (PV) energy solutions with full EPC service on grid-connected and off-grid plants worldwide.

PRODUCTS

- Wind solutions
- Photovoltaic solutions
- Hybrid solutions
- Solutions for mining industry
- Solutions to independant power producers
- Solutions for electricity supply companies

INTERESTS

- Interested to find a clients in Fiji, especially in the hotel industry

Sunzil

Solar powered desalination

Sunzil, in partnership with Renewable Water NC, developed the Elemental Water Source. The Elemental Water Source is a plug & play, containerized desalination solution that works off-grid using only solar energy to produce clean water from seawater. By unique Energy Recovery Technology, the system uses 70% less energy than conventional desalination technology, and therefore requires 3x less solar panels. This major breakthrough enables an independent water supply for any coastal location. Tap into the unlimited source of clean water for communities, resorts, industries, private properties, disaster relief & emergency response.

This solution is scalable from one to several thousands cubic meters per day of fresh water production. It can also be 100% off-grid solar or with genset support and/or grid connected. In addition, it can be used either for residential, but also for communities, industries, resorts, etc...

Additionally, SUNZIL PACIFIC design any off/on grid photovoltaic solution including small to large scale storage systems, mini-grids and solar farms.

PRODUCTS

- Smart solar powered desalination systems : sustainable off-grid desalination
- Photovoltaic solutions : solar panels, off-grid systems

INTERESTS

- Interested to find clients in Fiji, especially resorts interested by their solar powered desalination solution

Epureau

Water treatment solutions

Epureau is a player of sustainable development offering water treatment solutions from the intake to the discharge in the environment. With 40 years of experience in water treatment, Epureau is one of the leader in New Caledonia and operates overseas in 3 countries, counting more than 200 clients. From wastewater, drinking water, process and industrial water, tanks to collective swimming pools, we design and build turnkey units for water and effluent treatment. Epureau assists its clients in the choice of solutions and procedures related to the operation, as well as technical assistance, training of operators and the conception and implementation of tools necessary for the operation.

PRODUCTS

- Wood water tanks from 10 to 6000 m3
- Swimming pools & SPA : Pumping and treatment equipment, water games and slides
- Drinking water : Filtration, ultrafiltration, reverse osmosis, disinfection
- Wastewater : Sludge treatment, reuse of treated wastewater, landscape integration, pumping station
- Water treatment : Water softeners and filtration, network protection

Pacific Plastic Profil

Wood plastic composite profiles

Pacific Plastic and profile is a company specialized in the design and manufacture of PVC and WPC (Wood Plastic Composite) profiles for the building and its environment. Created 20 years ago, our mission is to offer quality product lines that are adapted to the Pacific climatic environment, their components and value-added services for the building industry while providing our customers with competitive advantages. Our values are respect for the environment and the future of our planet, safety and recycling are our priorities in this field. Product quality: we develop high-performance, aesthetically pleasing product lines that meet the technical, regulatory and architectural requirements of our markets. Our leitmotiv is to offer products with a very long lifespan and which are maintenance-free.

PRODUCTS

- PVC soffit for interior & exterior ceilings
- Profiles and accessories
- High quality composite decks
- PVC roof fascia and gutter system
- Sustainable eco-materials cladding profile

SEMA

Woodworker and cabinetry

SEMA, a company of cabinetry, wood joiner and layout, has been in existence in New Caledonia since 1978 and is based on interior design. Our company manufactures quality and custom local furniture for professionals and individuals. In recent years, it has been equipped with state-of-the-art digital machines to build all types of furniture. Our design office and our partners design your interiors in 3D image and synthetic image to provide you a final rendering of your project beforehand. SEMA's clients include public and private authorities, several hotels, banks and social donors. We export our products and knowledge to Tahiti thanks to a collaboration with a U.S. architect to build hotels and high-end private villas.

PRODUCTS

- All types of furniture on request (bar, kitchen, bathroom furniture, dressing room, counters, offices...)

INTERESTS

- Interested to find clients in Fiji
- Interested to find a partner in Fiji, especially for the assembly of the furniture

Cleannix

Desinfection services through eco-friendly technologies

Cleannix, a specialist in the fight against COVID and Allergen using ultraviolet lamps, offers disinfection services throughout the world. Our technicians work directly on your office (or house) to remove allergens from your mattresses, armchairs and carpets. Our process eliminates mites and microscopic moulds (but also bacteria) present in beds and which can cause asthma, allergies, itching and respiratory problems. Specialist of eco-friendly technologies, we offer to accommodation, industrial and health professionals effective solutions for disinfection. Our treatments allow faster and more efficient treatments than chemicals, as well as being economical and eco-friendly. Cleannix network assist entrepreneurs ready to invest in their market on the ecological transition by professional and technical disinfection services.

PRODUCTS

- Allergen removal services & products
- Provision of service of disinfection
- Anti-Covid intervention
- UV lamps for SURFACE, AIR and WATER treatment
- Revolutionary 100% natural mosquito repellent

INTERESTS

- Interested to find a distributor and/or a partner who would be interested in joining the Cleannix® network to promote efficient and environmentally friendly technologies, and develop the business in Fiji

Visualcom

Digital signage solutions

VisualCom, created in 2011, aims to help its customers to digitize their signage and improve the reception of their visitors. We install for our clients complete Digital Signage systems with a content management system as user-friendly as LinkedIn. We also install QMATIC queue management solutions. Thanks to our partnership with Philips for PRO screens, we offer robust solutions that go up to kiosk solutions and interactive applications with high added value. VisualCom has launched the first digital signage network in Noumea's restaurants with more than twenty screens displaying beautiful and interesting content; VisualCom markets advertising on these screens to advertisers seduced by the idea of associating the pleasures of eating with their brand. For us, the customer experience is at the heart of our values. We are above all "Customers" ! Now you know why we do what we do; to find out how we do it, contact us.
