TEEPRINT

Created in 1979, the designers of Teeprint are tasked with imagining and producing 100% New Caledonian textile lines and accessory ranges. Today, the company is a leader in silkscreen and embroidery in New Caledonia thanks to its experience and expertise. The company employs about forty people and records a production of 900,000 impressions and 150,000 embroideries a year. The 4,500 sqm² Teeprint manufacturing unit is located in the heart of Ducos.

Thanks to its know-how, Teeprint offers a wide range of products for companies, sports associations, students, parents, communities, schools, the army... Etc. It thus offers professional and advertising clothing, covers sporting, cultural events and events, launches ready-to-wear collections which are 100% New Caledonian brand, such as "Terre d'origine", "Esprit de Nouvelle-Calédonie" or still licensed brands such as "Brousse en Folie" "Secret spot" and "Tricot rayé".

With a design office managing the creation of drawings and logos, the company has developed its activity around different axes. Thus, it specializes in silkscreen printing which consists of printing a design or a logo on textile materials. It also offers slips and badges on textiles as well as PLV (advertising on place of sale) stickers.

Teeprint exports its products to Vanuatu and Wallis and Futuna through local partners, and aims to continue its expansion to all countries in the Pacific.
